T+1: The Impact of One - and Only One - Day to Settle Securities

WEDNESDAY, SEPTEMBER 20, 10:00 AM – 10:45 AM
CONFERENCE STAGE 4

As the move closer to T+1 in major markets becomes closer, what are the most attractive opportunities to be seized? How important is this to the leaders of some of the major securities infrastructures. What are the greatest concerns about the move and how will it impact operational teams around the world?

Michele Hillery
General Manager of NSCC's Equity Clearing
and DTC Settlement Service, DTCC

Unlocking the Full Potential of the Unique Transaction Identifier in Securities

MONDAY, SEPTEMBER 18, 1:30 PM – 2:15 PM
CONFERENCE STAGE 3

The securities industry is embracing the Unique Transaction Identifier to foster greater transparency and end-to-end visibility across the settlement chain. This will help firms avoid settlement fails and more efficiently handle investigations. But the possibilities go well beyond settlement. From claims management to portfolio transfers, inventory management and more, in this session, we'll unpack how the industry can maximize the benefits of UTI to solve most post-trade efficiencies.

Jason Harrell
Managing Director of Operational and
Technology Risk and Head of External
Engagement, DTCC

Managing Risk and Compliance in a Digital Era

MONDAY, SEPTEMBER 18, 4:15 PM – 5:00 PM
CONFERENCE STAGE 3

Digital transformation bring new risks and compliance challenges that need to be managed. During this session, our panel will discuss how to leverage technology for improved risk management and compliance while improving efficiency, reducing risk and maintaining compliance with changing regulations. We will also explore how to balance the need for compliance with innovation and how to find the right mix between automation and human intervention in operational processes, including DevSecOps. And, we will look at how to leverage data analytics and AI for operational efficiency and risk management.

Tokenization: The Future of Securities or Just a Digital Dream?

TUESDAY, SEPTEMBER 19, 2:30 PM – 3:30 PM
CONFERENCE STAGE 5

Tokenization has the potential to transform securities transactions and settlement. Yet, to date, despite prominent platform launches, volume growth has not met expectations. Join us for a lively debate where we will hear different viewpoints about where we are with tokenization, what will come next and how fast.

David Kirby
Executive Director, Americas Relationship
Management and Global Account
Management, DTCC

Fireside Chat - Accelerated Settlement and the Role of Market Infrastructure

TUESDAY, SEPTEMBER 19, 3:45 PM – 4:30 PM
EXHIBITOR STAGE 1

This fireside chat session deals with T+1 impact and latest developments, initiatives to enhance efficiency and the role of market infrastructure. Are you prepared for T+1? Key topics of the panel:

- › Impact of T+1 globally and latest developments
- › Initiatives on enhancing post-trade efficiency across capital markets
- › How central market infrastructure can play a role in this journey

Ana Lotharius
Director, ITP
Cross-Enterprise &
Americas Industry
Initiatives, DTCC

Accelerated Settlements: Are We Ready?

WEDNESDAY, SEPTEMBER 20, 9:00 AM – 9:45 AM
CONFERENCE STAGE 3

In May 2024, the securities industry will move to T+1. But are we ready to implement faster settlement cycles worldwide? Join us to hear Tony Gandy from the London Institute of Banking and Finance as he walks us through the finding of his crucial research on this topic. Alongside a panel featuring members of DTCC, ISTIC EU, ISITC, CSDC and the CCMA, this session will discuss global readiness and dive into some of the challenges to reaching this important milestone.

Pioneering Securities Tracking with the Unique Transaction Identifier

TUESDAY, SEPTEMBER 19, 1:00 PM – 1:30 PM
SWIFT STAND THEATRE

Come along to experience first-hand how the securities industry is leveraging the Unique Transaction Identifier (UTI) to enhance transparency and provide end-to-end transparency across the securities settlement chain. In this informative session, you'll hear from firms that are using the UTI today about the efficiency and risk management benefits they are seeing. Discover how you can tap into the potential of this global initiative.
